**IDEExplanation of Issue(s) and or Corrections where applicable**

10	All PDF's open in client's browser, none require the visitor to edit them. Whilst All PDF documents are printable, some may require large amounts of printer ink.	
11	There is Limited Support for page readers as the website relies heavily upon a tabled design for structure and some screen readers may have issues with this.	
12	Tested Safari on using iPhone and iPad. Tested Google Chrome & Microsoft Edge on windows 10.	
15	Not sure of the relevance as no Gp profile is sited.	
19	The only image (jpg. Logo) has compliant alt text.	
25	Corrections made to a discovered Contrast issue on Modal Popup. Adjustments have been made to address omitted <H1>Title</H1> element of the page header.	
30	The website relies heavily on the use of tables some Screen readers may have issues with this.
